1. Crab Apple (*Malus sylvestris*) T1 - Fell to allow for new driveway. We would like to completely remove the tree and also the lawn to install a block driveway. We cannot do this without the removal of the tree. We do not plan to replace the tree as there will be no location to plant a new tree. We have plants and bushes around the front which will still contribute to the look and feel of the area. We also have several bushes and one tree in our back garden.
